1.0 User Guide

This section is intended to explain the purpose of the Zoning By-law and provide clear instruction on the use of the Zoning By-law to the reader. The user guide is not an operable part of the Zoning By-law and should only be relied upon for interpretation of this By-law.

1.1 Purpose of This Zoning By-law

The purpose of this Zoning By-law is to implement the policies of the City of Brantford Official Plan, including what specific land uses are permitted and where they are permitted on a **lot** and what regulations apply to the development of these uses including such matters as building height and parking.

The Official Plan is not intended to regulate specific uses and aspects of the built form on a private **lot**. That is the role of the Zoning By-law. For example, if lands are designated in the Official Plan as Residential, the Zoning By-law will specify the types of residential **dwellings** permitted (e.g., **single detached**, **semi-detached**, etc.) and regulate performance standards (e.g., **building height**, **setbacks** from **lot lines**, etc.) for permitted **building** types and uses.

The statutory authority to **zone** land is granted by the *Planning Act, R.S.O. 1990 c.P13*. The *Planning Act* specifies what a By-law can regulate. A Zoning By-law can:

- Prohibit the use of land or **buildings** for any use that is not specifically permitted by the By-law;
- Prohibit the erection or siting of **buildings** and **structures** on a **lot** except in locations permitted by the By-law;
- Regulate the type of construction and the height, bulk, location, size, **floor area** and use of **buildings** or **structures**;
- Regulate the minimum frontage, depth and area of a parcel of land;
- Regulate the proportion of a **lot** that any **building** or **structure** may occupy;
- Require parking and loading facilities be provided and maintained for a purpose permitted by the By-law; and
- Prohibit the use of lands and the erection of **buildings** or **structures** on lands that are:
 - Subject to flooding;

- The site of steep slopes;
- Rocky, low-lying, marshy or unstable;
- Contaminated;
- A sensitive groundwater recharge area or head water area;
- The location of a sensitive aquifer;
- A significant wildlife habitat area, **wetland**, woodland, ravine, valley or area of natural and scientific interest;
- A significant corridor or shoreline of a lake, river or stream; or
- The site of a significant archaeological resource.

The Zoning By-law contains a variety of **zones** with specific regulations for each, and these **zones** must be in conformity with the land use designations provided in the Official Plan. These **zone** categories include:

- Mixed Use;
- Residential;
- Institutional;
- Commercial;
- Employment;
- Agricultural;
- Core Natural;
- Open Space; and
- Development.

The Zoning By-law also contains general provisions and parking provisions, which typically apply to more than one **zone** and address matters that are consistent across the municipality.

Finally, the Zoning By-law contains a number of site-specific exceptions where a special set of rules or permissions apply to a specific area.

1.2 How to Use This Zoning By-law

1.2.1 Locate the Property on a Map

The maps in a Zoning By-law are referred to as ‘Schedules’. The first step to using this By-law is to look at the appropriate Schedule and locate your property. Schedules are found at the end of this By-law or online at:

<https://www.buildbrantford.ca/zoning>

The **zone** category will be indicated on the schedule by an abbreviation. For example, the letters SR would indicate that the property is within the ‘Suburban Residential Zone’. The **zone** abbreviations used in this By-law include:

- Mixed Use
 - HM – Historic Mainstreets Zone
 - LD – Lower Downtown Zone
 - UD – Upper Downtown Zone
 - MCC – Major Commercial Centre Zone
 - BHC – Brant Avenue Heritage Conservation District Zone
 - IC – Intensification Corridor Zone
- Residential
 - SR – Suburban Residential Zone
 - NLR – Existing Neighbourhood Low-Rise Zone
 - GNLR – Greenfield Neighbourhood Low-Rise Zone
 - NCR – Neighbourhood Corridor Zone
 - RMR – Residential Mid-Rise Zone
 - RHR – Residential High-Rise Zone
- Institutional
 - I1 – Minor Institutional Zone
 - I2 – Major Institutional Zone
- Commercial
 - AS – Automobile Service Zone
 - CC – Convenience Commercial Zone
 - NC – Neighbourhood Commercial Zone
- Employment

- GE – General Employment Zone
- PE – Prestige Employment Zone
- Agricultural
 - A – Agricultural Zone
- Core Natural
 - N – Core Natural Zone
- Open Space
 - OS – Open Space Zone
- Development
 - D - Development Zone

1.2.2 Determine the Permitted Uses for the Zone

Go to the section of the Zoning By-law related to the **zone** category. For instance, the SR **zone** is in Section 7.0 – Residential Zones. A list of all permitted **uses** is provided in a table at the beginning of each **zone** category. Any **uses** not listed are prohibited in the **zone**. **Uses** permitted in all **zones** are detailed in the General Provisions section of this By-law, which is Section 3.0.

1.2.3 Check Definitions

Section 4.0 of this Zoning By-law provides definitions of key terms. These terms are **bolded** throughout this By-law to indicate that they have specific meanings. It is important to understand the exact meaning of certain words in this By-law when determining what is or is not permitted on your property. Illustrations in this section of the By-law help to describe different terms.

1.2.4 Check the Standards for the Zone

Specific standards for permitted **uses** are provided in a table in each section. For example, the SR provisions are set out in Table 7.3.1. Standards that typically apply include minimum **lot area**, minimum **lot frontage**, minimum yard **setbacks**, maximum **lot coverage**, maximum **building height** and landscaping requirements. There may be additional standards beyond these examples that apply in a particular **zone**.

1.2.5 Check for Site-Specific Exceptions

Certain properties have regulations which apply only to them. These are called site-specific exceptions. You can determine whether a site-specific exception applies to your property by looking at the schedules to this By-law. The site-

specific exception text is found at the end of each **zone** section that is applicable to that **zone**. For example, if the schedule shows an SR-01 on your property, it means site-specific exception 01, found in the SR **zone** section, applies. It is important to check this sub-section to determine if your property is subject to a site-specific exception, and if it is, understand how it may affect permissions on your property.

1.2.6 Check the General Provisions

Section 3.0 provides a set of standards known as ‘General Provisions’ which apply in all **zones** unless otherwise specified or listed as exceptions in the By-law. Some examples of topics covered under General Provisions include **swimming pools**, accessory **structures** and **home occupations**. Illustrations in this section of the By-law help to describe different general provisions.

1.2.7 Check the Parking and Loading Provisions

Section 5.0 details parking and loading requirements for each permitted use. Specific parking rates for permitted **uses** are provided (e.g., **apartment buildings** require 1 **parking space** per unit plus 0.15 spaces per unit for visitors) along with details on minimum **parking space** dimensions and other parking regulations.

1.2.8 Check for a Holding Provision

A lot may have holding provisions that apply to the property in addition to the regulations of the Zoning By-law or a site-specific exception zone. The holding provisions must be satisfied before development can occur in compliance with the **Zone** provisions. The holding symbols are shown on Schedule A and the conditions for lifting the hold are found in Section 15 of this By-law. The following example is offered to provide greater clarity for interpretation purposes: In a Core Natural (N) Zone, a **zone** symbol may read: H1-N, where: N is the parent zone, as found in Section 12 of this By-law. H1 is the holding symbol with the number identifying the provisions that apply as found in Section 15 of this Zoning By-law.

1.3 Ask for Help

Zoning standards can be difficult to understand and there may be additional rules and regulations which apply to your property (e.g., Heritage requirements). City of Brantford staff are happy to help. Questions should be directed to the Building Department at the City of Brantford.

2.16 Illustrations

Illustrations or examples in this By-law are intended to provide additional clarity and convenience but do not form part of this By-law.

2.17 Permitted Use

If a **use** is defined but not specifically listed as a permitted **use** by a **zone** or site specific provision, it is not permitted and shall not be interpreted as being captured by a broader **use**.

2.18 Technical Changes

Provided the intent of the Zoning By-law is maintained, the following technical changes are permitted without an amendment to the Zoning By-law:

- a) Renumbering of sections or cross reference to sections;
- b) Correcting errors;
- c) Minor editorial changes;
- d) Formatting changes;
- e) Minor map changes; and
- f) Changes to the Core Natural Zone limits based on any approved technical studies required by the City and/or the Conservation Authority.

2.19 Transition

The provisions in this Zoning By-law shall be deemed to be modified to the extent necessary to give effect to such building permits, minor variance decisions, consents, letters of undertaking and site plan agreements which were approved, issued or entered into prior to approval of the Zoning By-law or that were submitted and under review prior to the approval of the Zoning By-law, for a time period no greater than 2 years after the Zoning By-law has come into force and effect.

Applications for zoning by-law amendment that were submitted prior to the approval of this Zoning By-law will, if approved, be incorporated via an amendment into this Zoning By-law.

2.20 Overlay Zones

Overlay **zones** (e.g. **Flood Protection Overlay**) are used in this By-law to apply an additional layer of standards to specific areas that apply on top of the standards of the underlying **zones**.

2.21 Holding Symbols

Where a zone shown on Schedule A contains an (H) followed by a number, the (H) represents a holding provision that shall apply until such time that the (H) symbol is lifted by amendment to this Zoning By-law in accordance with Section 36 of the *Planning Act*, as amended. The conditions that are required to be satisfied prior to the removal of the holding (H) symbol are identified in Section 15.

2.22 Interpretation of Site-Specific Exceptions

Site-specific exceptions to the Zoning By-law are illustrated on Schedule A using a hyphenated numerical suffix.

2.23 Zero Decimal Three (0.3) Metre Reserves

For the purposes of this By-law, a 0.3 metre **reserve** shall be considered to be part of the abutting public **street**.

2.24 Temporary Use “T” Prefix

Amended by by-law 75-2025.

Where a **zone** symbol is preceded by the letter “T” and a number (e.g. T1), the lands may be developed for a **use** on a temporary basis in accordance with Section 39 of the *Planning Act*. The provisions of this By-Law are modified for the lands to which the temporary **use** permission applies until the permission granted by the applicable Temporary **Use** By-law expires. Temporary use permissions granted are identified in Section 16.

2.25 Measuring Yard and Planting Strips

All **yards** required under this By-law shall be measured from the limit of the planned **street right-of-way** or the **existing right-of-way**, whichever is greater. Where the proposed **right-of-way** is greater than the **existing right-of-way**, then one-half the difference between the two rights-of-way shall be applied to each

side of the **existing right-of-way** and the yards and planting strips shall be measured from that point. Refer to the City of Brantford Official Plan Schedule 13 for planned **street right-of-ways**.

2.26 Multiple Zones on a Lot

- a) Where a **lot** falls into two or more **zones**, each portion of the **lot** shall be subject to the **use** permissions applying to that portion of the **lot**. The more restrictive **lot** and **yard** provisions shall apply to the entirety of the **lot**.
- b) A **zone boundary** dividing a **lot** into two or more **zones** is not a **lot line** for the purposes of this By-law
- c) Notwithstanding 2.26 b), where two or more **zones** apply to a **lot** and one of the **zones** is the Core Natural (N) Zone, the boundary between the Core Natural (N) Zone and the other **zone(s)** is considered a **lot line** for the purposes of calculating minimum lot size, **lot coverage**, and determining angular plane requirements.

2.27 Multiple Condominiums on a Lot

Where multiple condominiums are created on a **lot**, the multiple condominiums will be treated as one **lot** for the purpose of the **zone** provisions in this Zoning By-law.

2.28 Interpreting Zone Boundaries

When determining the boundary of any **zone** shown on Schedule A, the following provisions shall apply:

- a) Where a **zone boundary** is indicated as following a **street, lane**, unopened **road allowance**, railway **right-of-way**, utility corridor or watercourse, the boundary is the centre line of such **street, lane**, unopened **road allowance**, railway **right-of-way**, utility corridor or watercourse;
- b) Where a **zone boundary** is indicated as approximately following **lot lines**, the **zone boundary** shall be the **lot lines**.
- c) Where a **zone boundary** is indicated as following the corporate limits of the municipality, the corporate limits shall be the **zone boundary**.
- d) Where the boundary of a Core Natural Zone, as interpreted in the field to the satisfaction of the Conservation Authority having jurisdiction, varies from the limit shown on Schedule A, the refined limit shall be deemed to be the **Zone boundary**.

- e) Where a **zone boundary** appears to be parallel to a **street**, a **road allowance** or the **right-of-way** of a railway, hydro corridor or pipeline, such boundary shall be interpreted as being parallel to such feature at the distance determined by the scale of the applicable map on which it is shown.
- f) Where none of the above provisions apply, the **zone boundary** or overlay boundary is to be scaled from Schedule A or B.
