USER'S GUIDE

Introduction

This user guide is intended only to make the Zoning By-Law easier to understand and reference, and to outline how to use the By-Law to find basic zoning information. These pages do not form part of the Zoning By-Law.

If you have any questions about the content of or how to interpret this By-Law, or to obtain any content of this By-Law in an alternate format, please do not hesitate to contact Planning Department.

Purpose of the Zoning By-law

The purpose of this Zoning By-Law is to implement the policies of the County of Brant Official Plan. The Official Plan contains general policies for future land use. These policies specify where certain land uses are permitted and, in some instances, specify what regulations should apply to the development of certain lands. Zoning By-Laws put the plan into effect and provide for its day-to-day administration. They contain specific requirements that are legally enforceable.

Once an Official Plan is in effect, any Zoning By-Law passed by Council must conform to the Official Plan. For example, if the Official Plan stated that lands in the vicinity of a significant natural feature are to remain in their natural state, the Zoning By-Law would prohibit the erection of buildings or structures on those lands.

The Planning Act specifies what a Zoning By-law can regulate:

- how land may be used;
- where buildings and other structures can be located;
- prohibit the use of land or buildings for any use that is not specifically permitted by the By-Law;
- prohibit the erection or siting of buildings and structures on a lot except in locations permitted by the By-Law;
- regulate the type of construction and the height, location, size, floor area, spacing, and use of buildings or structures;
- regulate the minimum frontage and depth of a parcel of land;
- require parking and loading facilities be provided and maintained for a purpose permitted by the By-Law.

How to Use This By-Law

In order to reference this By-Law most easily, a property owner should follow each of the steps listed below to determine what permissions apply to their particular property.

1) Locate the Property on a Map

Maps in a Zoning By-Law are called 'Schedules'. The first step to using this By-Law is to refer to the zone schedules that are contained at the back of the By-Law to determine in which zone category your property is located. The zone category will be indicated on the schedules by a symbol.

For example, a symbol such as "RM3" on your property indicates that your property is within the 'Residential Multiple High Density' Zone. The zone symbols or abbreviations are explained in Section 2 of the By-Law.

2) Zone Provisions and Regulations

Section 6 through 14 of the By-Law explains the uses permitted in each particular Zone and the regulations applying in the Zone. These regulations establish the "building envelope" for development on a lot. The amount of developable area and the types and sizes of buildings allowed are further regulated by other Parts of the By-Law.

3) Definitions

The definitions in Section 3 can assist you if you are not sure of the nature of a permitted use or how it has been defined for the purposes of this By-Law. Words that are defined in Section 3 are italicized throughout the By-Law.

4) General Provisions

Section 4 contains a more generic set of standards known as 'General Provisions' that apply to all properties in all zones throughout the County. For example, the general provisions contain standards that regulate the location of accessory structures on a lot, height exceptions, and non-conforming uses that apply to all properties.

5) Parking and Loading

Section 5 provides the parking and loading requirements for all uses permitted in the County. If you are considering changing the use of your property or adding a new use to your property, you should review Section 5 to ensure that you are aware of the parking requirements for the proposed use.

6) Appendix 1

A series of drawings are provided in the back of this document to assist the reader in interpreting the Zoning By-Law provisions. These drawings are for illustration purposes only and do not form part of the actual By-Law.

SECTION 15: HOLDING (h) AND TEMPORARY (T) ZONES

15.1 Holding “h” Zone Provisions

Where the symbol “h” appears on a zoning map as a prefix to any *Zone* symbol, the lands have been placed in a ‘Holding *Zone*’ pursuant to Section 36 of the Planning Act. County may pass a By-Law pursuant to Section 36 of the Planning Act to remove the Holding (h) Symbol, thereby placing the lands in the *Zone* indicated by the *Zone* symbol.

While the “h” is in place, the following *uses* shall be permitted:

- a) *Agricultural use*;
- b) conservation;
- c) wildlife and forest management; and
- d) *existing uses*.

For the purposes of this By-Law, the following references constitute the conditions for removal of the holding (h) symbol:

- a) h To ensure the orderly *development* of lands and the adequate provision of municipal services, the “h” symbol shall not be removed until an Agreement as required by the Planning Act is entered into for the subject lands with the County.
- b) h-1 To ensure that *development* takes a form compatible with adjacent land *use*, an Area Study shall be required with public consultation in advance of any development proposals including Plans of Subdivision/Condominium being submitted for approval prior to the removal of the “h” symbol.

15.2 Temporary “T” Zone Provisions

Where a *Zone* symbol is preceded by an upper case letter “T”, a hyphen and a number (T-1), the symbol refers to a temporary *use* permission that applies to the lands so zoned. The provisions of this By-Law are modified for the lands to which the temporary *use* permission applies as set out in this section of this By-Law, until the permission granted by the applicable Temporary Use By-Law expires, in accordance with Section 39 of the Planning Act. This *Zone* permits temporary *uses* for a specified period of time after which the Temporary (T-_) *Zone* symbol and text are removed and revert back to the main *Zone*. It is not intended that a temporary *Zone* will permanently establish a *use* on a *lot*.
